Diabolo Cream Separator

600 lbs only \$46.75

Its the sensation of the world. The bowl is made from the best Swedish steel. It has upper bear-Main frame is strong and durable. The base is cast in one solid piece. The gearing is all contained in the main frame of the machine. It is guaranteed to produce as fine a quality and as great a quantity of cream and butter as any separator made. It has fewer discs to wash than any other machine. Its light running and easy to regulate. All bearings are made of the highest phosphor bronze. Call and see this wonderful machine before you buy elsewhere.

Danger Pennies

How False Economy in Lubrication Often Proves a Boomerang

Let us look at some plain arithmetic. Suppose your car cost \$1,200. At the end of the year you reckon expenses and roughly, you find: Depreciation in selling value, say \$400; tires, approximately, \$100; repairs ?; gasoline, 5,000 miles at 2c a mile or less \$100; insurance, say \$65; lubrication, perhaps as much as \$10. Total \$675 plus.

Lubrication comes last-at a trivial \$10.00 a year. It is human failing to treat such small outlays lightly.

Some motorists do not yet realize that oils which can be sold at pared down prices cause pared down efficiency, and send total yearly expenses up—not by mere penny steps but by real dollar leaps.

Co sider depreciation: Why does it loom up so large? Not enough attention paid to that \$10.00 a year. When cars are given sufficient oil for their motors, automobiles will command higher re-sale prices,

We keep on hand a full line of VACUUM OILS for bi cycles, motorcycles, automobiles, gas tractors and threshing engines. We guarantee this oil to be the best on the market. Sold by the quart, gallon, 5 gailon or barrel.
